- Special Session

Rheinturm, Düsseldorf, Germany

Partial Online Streaming of the RWE TI Germany Forum

By offering online streaming of selected content that was previously accessible only to in-person attendees, we hope this forum will provide you with an opportunity to gain a deeper understanding of IERE. We sincerely hope it will encourage you to participate in future IERE events and to engage actively in information exchange within our platform, thereby contributing to the IERE community.

The streamed program features distinguished content, including Keynote Speeches under the theme “**Growing Green**”, a Panel Discussion with all Keynote Speakers, a Special Lecture by the IERE Advising Chair Emeritus on the future of public utility R&D, and a Special Session introducing the featured company’s overview, strategies, and roadmaps related to planning and management.

We are confident that this program will offer valuable insights not only to researchers but also to professionals involved in planning and management, and that it will serve as a meaningful source of knowledge for a wide audience.
