### << Invitation to collaborative R&D projects >>

IERE Central Office asks members to propose new collaborative R&D projects.

Please submit "Project proposal form".

Please refer; [http://www.iere.jp/NonMembers/RD\\_WG/index.html](http://www.iere.jp/NonMembers/RD_WG/index.html)

"Collaborative R&D Projects" has started since November 2011.

Participants have to share the work by providing technological knowledge, information, skills and manpower. Basically, the costs will also have to be shared. Naturally, every participant expects equal or comparable benefits from the projects.

#### **\*\* Join the following projects \*\***

which were accepted to start by IERE R&D Working Group:

Project 1: "Transformer Insulating Paper Diagnosis; For a worldwide

' application of methanol as an innovative marker" (proposed by HQ)

' (The first project meeting was held on May with 15 participants.)

Project 2: "Diagnosis Center for HV Current Transformers" (proposed by IIE)

Project 3: "Life-time Evaluation of Transmission Power Cables" (OF Cable)

(proposed by KEPCO RI)

All IERE members can participate in these projects.

Please submit "Application Form for participation" to IERE Central Office.

**<< IERE-TPRI Expert Meeting is postponed. >>**

IERE decided to postpone the Expert Meeting on Clean Coal Technologies which was expected to be held on 20-21 September in Xi'an, China, because of considering the recent situation with TPRI's suggestion.

Re-arranged schedule would be informed later on.
